PROFESSIONAL SUMMARY

Self-taught Front-End Developer with over one year of practical experience since June 2024, specializing in building responsive and user-friendly web applications using React.js and Next.js. Proficient in JavaScript, Redux Toolkit, and UI/UX design, with hands-on expertise in API integration and performance optimization. Delivered scalable projects including e-commerce and streaming platforms deployed on Vercel. Leverages 13 years of hospitality experience to enhance client communication, teamwork, and customer-centric design. Passionate about collaborating with design teams and solving problems in fast-paced environments.

WORK EXPERIENCE

FREELANCE FRONT-END DEVELOPER

Cairo, Egypt | June 2024 - Present

- Developed 'Protein Pro' (<https://protein-pro.vercel.app/>), a responsive e-commerce platform using React.js, hosted data on Glitch, and deployed on Vercel.

- Designed and implemented React.js components with mobile-first and responsive design principles.
- Integrated RESTful APIs for dynamic content and optimized web performance.
- Managed version control with Git and collaborated on GitHub for project tracking.
- Built 'Movie Show' (<https://movie-show-blond.vercel.app/>), a streaming platform using React.js, Redux Toolkit, and TMDB API.
- Collaborated with a two-person team, leading GitHub project management, resolving merge conflicts, and ensuring clean version control.
- Translated UI/UX designs into responsive interfaces using Tailwind CSS and applied SEO best practices.
- Managed state with Redux Toolkit and deployed on Vercel with a focus on performance optimization.
